Trac Support 3

Trac Support

Like in most <u>lopen source projects</u>, "free" Trac support is available primarily through the community itself, mainly through the <u>lmailing list</u> and the project wiki.

There is also an <code>!!RC channel</code>, where people might be able to help out. Much of the 'live' development discussions also happen there.

Before you start a new support query, make sure you've done the appropriate searching:

- in the project's **IFAQ**
- in past messages to the Trac [Mailing List

Please **don't** create a ticket in this Trac for asking a support question about Trac. Only use it when you face a *real* and *new* bug in Trac, and do so only after having read the NewTicketGuidelines. The more a bug report or enhancement request complies with those guidelines, the higher the chances are that it will be fixed or implemented promptly!
